The Memoirs of the Faculty of Engineering

Fukuyama University Vol. 28

CONTENTS

Two-Dimensional Electromagnetic Field Analysis in Linear Motor with Concentrated Exciting Windings
Kazuya WAKISAKA and Tuguo ANDO 1

Measurement of Interface State Density in MOSFETs by Charge-Pumping Technique
Masayasu MIYAKE 9

The Measurement of Surface Wave Transmissions along a Boundary between Dielectric Material and Water Surface
Satoshi TANAKA and Yusuke WADA 19

Reliability Assessment of Distribution Network Based on Reference Network Concepts
Koji KAWAHARA 23

Experimental Study of WBFC Method for Testing Electromagnetic Immunity of Integrated Circuits
Naoki KAGAWA 31

Evaluation on the Purification Effects of Water Quality and the Biological Characteristics of Epiphytic Algae by On-Site Wetland Experiment
Masayuki TSUDA and Masaru OJIMA 39

Precision and Accuracy of Deformation Measurement of RC Members by Vision Metrology
Katsuyuki MIYAUCHI, Keiichi AKIMOTO and Susumu HATTORI 45

A Study on a New Interpretation of Upper and Lower Bound Theorem in Limit Analysis and its Application
Akira NISHIHARA 57

Analytical Study of Flexural Behavior of RC Members with Earthquake-Resistant Steel Bars
Masakazu TERAI and Koichi MINAMI 67

Experimental Study on Elastic-Plastic Behavior of SRC Columns with High Strength Steel
Tomoyoshi AKITA and Koichi MINAMI 73
Damage Analysis of Existing Public School Buildings in Hiroshima Prefecture due to 2001 Geiyo Earthquake
Shinji SATO and Koichi MINAMI 81
Study on Scale Effect of Shear Stress of Reinforced Concrete Members
Haruka MAEGAWA, Masakazu TERAI and Koichi MINAMI 93
Strengthening Effect of RC Columns Using Steel Spiral Thin Tubes under the Varying Axial Loading
Minae FUKUHARA and Koichi MINAMI 101
Some Consideration on Earthquake Damage of Existing RC School Buildings Based on Seismic Performance Indices
Momoyo NEGUCHI and Koichi MINAMI 113
The Individual Differences for Color and Form Recognition of Architecture
-The Problem to the Analysis by Semantic Differential Method
Yasushi ONO 121
A study on the Psychological Effect of Lighting for Living Room
-The Possibility of Experimental Research on Psychological Effect of Atmosphere by CG Simulation-
Yasushi ONO, Naoki TADA and Kazuko SHIMADA 127
A Study on Roof Application of Tensegrity
(Form Finding Method of Three struts tensegrity Triplex)
Seiji KAKUDA and Tomoyoki YOKOI 133
A Study on Media-Rich Education of Building Mechanics using Personal Computer
1:Effects of Practices on Web Site
Tomoyuki YOKOI 139
Study on Room Arrangements and Women's Territory in the Novel "KIN PEI BAI"
Interior and Furniture
Miki FUJIWARA, Susumu ISHIMARU and Shizuo MATSUMOTO 145
Study on Room Arrangements and Women's Territory in the Novel "KIN PEI BAI"
Symbolism found in a House
Miki FUJIWARA and Shizuo MATSUMOTO 153

A Study on Ecology Consciousness and Contribution to Local Community of Supermarket in Fukuyama District
Yoshinobu MUROTO and Tomotsugu EIZUMI 161
A Study on Block Formation of Housing Estate in Slope Development for Detached House by Land Readjustment Business
Yoshinobu MUROTA and Mie KATAOKA 169
A Study on Trend of Research Paper and Planning Problem of Nursing Home for the Elderly
Miwako SHIMADA and Yoshinobu MUROTA 177
A Study on Consciousness of Care and Spacial Structure of Floor Plan or Room Recognized by Care Stuff of Nursing Home for the Elderly
Miwako SHIMADA and Yoshinobu MUROTA 185
A Study on Post Occupancy Evaluation
Makoto INOUE 191
A Study on Campus Planning of University
Makoto INOUE 199
Application of Linear Programming to the Data Processing of Measured Values
Fujio KOBAYASHI, Takashi OZAKI and Kazuhiro TSUTSUMOTO 207
Development of Earthquake Prediction Method by Information Processing of Observed Environmental. Electro-magnetic Wave Data
Toshihiko KOUNO and Shigekazu KATAGIRI 217
Estimation of Diffuse Reflection at Object Surface
Katsumi MORI, Koji WATANABE, Shigekazu KATAGIRI, Atsuko ASANO and Eiji WATANABE 221
A System-Theoretic Study of the Signal Control in Urban Road Networks
Hikaru SHIMIZU, Masa-aki KOBAYASHI, Haruko FUJII, Hiroshi ISHIKAWA, Kazuo KAWAKUBO and Toshio SHINTANI 231
Effect of JPEG Compression of Images on Measurement Precision
Masahiko YAMAMOTO, Yu FUJIWARA and Susumu HATTORI 245
Comparison of Corner Detection Algorithms for Orientation Points Selection-Foerstner and Susan Operators
Yu FUJIWARA, Masahiko YAMAMOTO and Susumu HATTORI 249

Electromagnetic Field Analysis of Antenna by a Method of Moments Using Triangular Patches
Hajime TSUBOI and Motoo TANAKA 253
A Program to Solve Calculation
Yoshinori NANZAKI and Toshio SHINTANI 259
State Estimation and Prediction of Finite State Machines
Koji WATANABE, Takeo IKAI and Kunio FUKUNAGA 267
Monte Carlo Simulation of Hypersonic Flow
Keiji MANABE, Hiroaki NAKAMURA and Masatomi NISHIO 273
Flow Patterns around MESUR Capsule Traveling at Supersonic/Hypersonic Speeds
Hiroaki NAKAMURA, Keiji MANABE and Masatomi NISHIO 277
Numerical Analysis of Flow Structures around Mars Entry Capsule Traveling at Supersonic/Hypersonic Speeds
Hiroaki NAKAMURA, Keiji MANABE and Masatomi NISHIO 287
Development of Microcapsules used in Model Blood Flow
Satoshi NODA, Katsuji SAKAGUCHI and Hiromu TSURUSAKI 299
Flow Visualization around a Circular Cylinder on the Flow Field of Oscillatory Air Column in the Closed Pipe
Kotaro SUZUKI and Katsuji SAKAGUCHI 305
