

# The Memoirs of the Faculty of Engineering

## Fukuyama University Vol.29

### CONTENTS

Evaluation of Emotions for Music Sounds with Different Tones Based on Emotional Spectrum Analysis Method Using Brain Waves Yasuo MITANI, Kazuhiro TSUTSUMOTO and Noboru NAKASAKO .....	1
Separation of Gel Particles using by Magnetic Separator Shuntaro KURINOBU and Hiroaki OZAKI .....	9
C-V Characteristics of Buried-Channel MOS Capacitors by Small-Signal Admittance Calculation Masayasu MIYAKE .....	15
Analytical Study on Cyclic Performance of Box Columns with Thickness Tapered Plates Minoru UENOYA, Masaki NAKAMURA, Yuhshi FUKUMOTO, Masanao FUKUSHIMA and Hideyuki NAKANOMAE .....	25
Experimental Study on Elastic-Plastic Behavior of Hybrid Box Columns under Cyclic Shear Minoru UENOYA, Masaki NAKAMURA, Yuhshi FUKUMOTO, Yuhki SHIRAKAWA .....	39
Seismic Performance of Repaired RC Columns with Boundary Surfaces of Matrix Concrete and Restored Polymer Cement Mortar Katsuyuki MIYAUCHI .....	47
Seismic Strengthening of Existent RC Column with Polymer Cement Mortar and Carbon Fiber Grid Reinforcement Katsuyuki MIYAUCHI .....	59
Interactive estimation between purification effects and growth of biology in field experimental channels at the Takaya-river Masayuki TSUDA and Masaru OJIMA .....	67
Influence on Flexural Behavior of RC Members by the Properties of Main Bars Masakazu TERAJ and Koichi MINAMI .....	73
Disaster Investigation of the Mid Niigata Prefecture Earthquake in 2004 Masakazu TERAJ, Yaiti SHIMIZU and Koichi MINAMI .....	81

Experimental Study on Elastic-Plastic Behavior of SRC Columns with High Strength Steel	Tomoyoshi AKITA, Kazuyoshi FUJISAWA, Seiji FUJISAWA, Takayuki NANBA, Junichi SAKAI and Koichi MINAMI	.....	93
Evaluation of Seismic Risk of Existing RC School Buildings Based on Seismic Performance Index	Momoyo NEGUCHI and Koichi MINAMI	.....	101
Damage analysis of the certain SRC apartment house where damage was received due to Fukuoka Prefecture west offing earthquake	Mitsuyoshi ISHIMURA, Masakazu TERAJ and Koichi MINAMI	.....	111
Some Consideration on Stress Additional Rate $\gamma$ of Steel Building with Base-type Column Bases	Mitsuyoshi ISHIMURA and Koichi MINAMI	.....	121
Damage Analysis Based on Seismic Data of Existing Public School Buildings in Hiroshima Prefecture due to 2001 Geiyo Earthquake	Shinji SATO and Koichi MINAMI	.....	129
Strengthening Effect of RC Columns Using Steel Spiral Thin Tubes	Minae FUKUHARA and Koichi MINAMI	.....	141
Flexure Failure Properties of Reinforced Concrete Columns with High-strength Shear Reinforcement	Takuya KINOSHITA, Minae FUKUHARA and Koichi MINAMI	.....	147
Experimental Study on Seismic Performance Evaluation of Cross Timber Frames	Takayuki MITANI and Teruo KAMADA	.....	155
Horizontal Bearing Capacity of Timber Frames with Knee Brace	Teruo KAMADA	.....	163
Horizontal Bearing Capacity of Timber Frames with Soil Painted Small Wall (Kokabe)	Takayuki MITANI and Teruo KAMADA	.....	169
Development of Timber Frames with Wall Panels dropped in between Column Slits	Satoru MURATA and Teruo KAMADA	.....	177
Effects of Antiseismic Reinforcement with a Ladder Shape Timber Frame on Wooden Houses	Teruo KAMADA and Yusuke AMANO	.....	185

Horizontal Bearing Capacity of Rib Frames used in Monocoque Houses	Teruo KAMADA and Ryo FUKUSHIRO	.....	193
Report on the House Damage Investigation of the Mid Niigata Prefecture Earthquake in 2004	Teruo KAMADA	.....	201
A Study on User and Use Structure Analysis for 4 Years after Opening in Hiroshima Prefectural Fukuyama Convention Hole	Yoshinobu MUROTA and Tomotsugu EIZUMI	.....	213
A Case Study on Estimate of Economic Effect on Region Using Inter-industry Relations Table of Hiroshima Prefecture Edition	Yoshinobu MUROTA and Kaname SAKAI	.....	221
A Study on Interior design and Furniture in the Novel "JIN PING MEI"	Miki FUJIWARA, Susumu ISHIMARU and Shizuo MATSUMOTO	.....	229
A Study on Facilities for Students in Campus of University	Makoto INOUE	.....	233
A Study on Information Signs in Campus of University	Makoto INOUE	.....	241
Analysis of Spectral Power Distributions by Means of Linear Programming	Fujio KABAYASHI, Takashi OZEKI and Kazuhiro TSUTSUMOTO	.....	249
Earthquake Prediction by Observing the Broadband Electromagnetic Wave	Toshihiko KOUNO and Shigekazu KATAGIRI	.....	259
Lightning Strike Simulation and its Application to the City Planning	Toshihiko KOUNO and Shigekazu KATAGIRI	.....	265
A Design of Traffic Flow Control System Based on Unity between Traffic Engineering and Control Engineering	Hikaru SHIMIZU, Masa-aki KABAYASHI, Haruko FUJII, Hiroshi ISHIKAWA, Kazuo KAWAKUBO and Toshio SHINTANI	.....	271
Simple XWindow Program Development System for Education	Hajime TSUBOI	.....	281
Detection of Degraded Target Images in Industrial Vision Metrology	Yu FUJIWARA, Masahiko YAMAMOTO and Susumu HATTORI	.....	285
Stability of Interior Orientation Parameters of a Digital Camera	Masahiko YAMAMOTO, Yu FUJIWARA and Susumu HATTORI	.....	289
Consideration on the Rate of Success of Calculation	Toshio SHINTANI and Yoshinori NANZAKI	.....	293

Approximation model for crack in finite element analysis of eddy current testing problem	Motoo TANAKA and Hajime TUBOI	.....	299
A numerical method of algebraic equation with guaranteed accuracy	Takashi OZEKI, Koji Yamasaki and Fujio KOBAYASHI	.....	305
Flowfield Analysis around Space Plane	Hiroaki NAKAMURA, Keiji MANABE and Masatomi NISHIO	.....	311
Shock Capturing Analysis by Finite Element Method	Keiji MANABE, Hiroaki NAKAMURA and Masatomi NISHIO	.....	319
Basic System Identification for Finger Motion considering EMG of Flexor and Extensor Muscle	Junso KIMURA, Daiki ITO, Takashi OKUIE and Kenta OTSUKA	.....	325
